**RE: Rezoning of Lot 6, Block 29, Plan 4402KS
13203 - 66 STREET NW, Edmonton, AB**

Dear Neighbour,

This pre-application notification letter is being sent to you to collect feedback in advance of submitting a formal rezoning application to the City of Edmonton for the property located at 13203-66 ST NW, legally described as Lot 6, Block 29, Plan 4402KS.

As per the requirements of the Edmonton Zoning Bylaw 12800, and because you are a land/home owner located near the site, we wanted to let you know directly about the proposed changes that we intend to file with The City of Edmonton.

On behalf of the owner, we intend to submit an application to rezone the above noted property from Neighbourhood Convenience Commercial (CNC) zone to Site Specific Development Control Provision (DC2) (see Figure 1: Proposed Rezoning; attached).

The proposed DC2 Provision will add the use of Cannabis Retail Sales to the list of allowable uses found within the Neighbourhood Convenience Commercial (CNC) zone.

Section 70 of the Edmonton Zoning Bylaw contains special development requirements if the use of Cannabis Retail Sales is pursued, including separation requirements from existing sensitive uses.

We request that you review the attached information and provide your comments to the undersigned. We will document any opinions or concerns expressed, which will then be submitted as part of the rezoning application to the City.

Should you have any comments, questions, or require any additional information, please contact us directly by October 15, 2018.

Sincerely,

Dave Onishenko | Principal
